SUMMARY

With extensive experience in React Native, I bring strong expertise in JavaScript and TypeScript, including hands-on experience with frameworks like Next.js and React.js, and a proven ability to solve complex problems effectively.

EXPERIENCE

ZeroOne Labs (Sydney - Remote)

Software Engineer
Dec, 2023 - Present

As a Senior Software Engineer at ZeroOne Labs, I lead the development of cross-platform mobile applications using React Native and build high-performance web solutions with Next.js, leveraging modern tools like Tailwind CSS, GraphQL, and Sanity. I specialize in scalable state management with Jotai, reusable UI design with Tamagui, and end-to-end testing using Playwright and Maestro. Additionally, I streamline CI/CD workflows for mobile apps with Expo and manage serverless deployments with Vercel to ensure seamless, efficient delivery of applications.

Machnet Technologies Inc. (Kathmandu)

Senior Software Engineer
Dec, 2020 - Dec, 2023

As a Senior Mobile App Developer, I led the development and maintenance of secure, high-performance mobile applications enabling efficient cross-border remittance. My role encompassed hands-on coding, team leadership, and strategic planning to deliver high-quality solutions on time. I implemented OTA updates with CodePush, integrated Sentry for real-time error tracking, and optimized CI/CD pipelines using Jenkins and AppCenter. By adopting modular architecture and clean code practices, I ensured scalability and maintainability of the codebase. Additionally, I collaborated closely with cross-functional teams to align project goals and ensure seamless execution.

Janata Technologies (Kathmandu)

Software Engineer
Nov, 2018 - Dec, 2020

I contributed to the development of a ride-sharing app for clients and partners, focusing on user safety, real-time interactions, and seamless navigation using React Native. I implemented real-time location tracking with React Native Maps, integrated push notifications for updates and alerts, and enhanced user experience with animations using Reanimated and Gesture Handlers. Additionally, I developed secure native payment modules for gateways like Khalti and e-Sewa and utilized Firebase tools for

analytics, crash reporting, and real-time data management. To improve safety, I implemented SOS features, including voice recording and photo sharing.

EDUCATION

Leeds Beckett University (The British College, Kathmandu)

MSc Information and Technology

Sep, 2021 - Mar, 2023

Nepal College of Information Technology (Lalitpur)

Bachelor of Engineering in Information Technology

Jun, 2014 - Jun, 2018

Achievements

Conducted workshop on React Native

The workshop focused on providing a comprehensive introduction to React Native, starting from the basics and progressing towards the complete development of a basic application. Participants learned fundamental concepts, such as components, state management, and navigation, and gained hands-on experience in building a functional app. The workshop covered essential topics like UI design, handling user input, navigation and integrating APIs.

Training/Certifications

Broadway Infosys

Professional Training on Java Programming

2017

Nepal College of Information Technology

Mobile App Development - Android

2017

Academy for IT Engineering

Microsoft Windows Server Administration

2012

Academy for IT Engineering

Cisco Certified Network Associate

2012

Skills

Javascript, TypeScript, HTML,CSS, Git & Github, swift, CI/CD tools like Jenkins, Github Action, ui/ux (figma)

Language

Nepali, English, Newari
